

We rely on a great team!

We are looking for:

Title: Data Scientist m/w

Reports to: Chief Technology Officer

Location: Munich, Germany /or Bangalore, India

Starting as soon as possible

Position Summary:

The Cunesoft team is looking for exceptional individuals with experience in data science and engineering to help us enable cutting edge user experiences, digital assistants and regulatory process automation. Come join a growing team where you will have the opportunity to build the core technologies and tools that positively change how our customers work with enterprise applications - making them more engaging, collaborative and interactive.

Major Responsibilities:

- Design and develop state-of-the-art deep learning architectures in information extraction and natural language processing.
- Conduct performance analysis and optimize neural networks training code.
- Improve compute and memory efficiency of neural network training.
- Closely follow academic developments in the field of machine learning

Experience/Skills:

- 3+ years of experience using machine learning and data science to ship real-world data products
- Degree in a quantitative discipline: computer science, statistics, operations research, information visualization, biophysics, applied mathematics, etc
- Experience in Hadoop, Spark and associated tools to build scalable machine learning systems
- Strong programming skills with a solid foundation in data structures, algorithms, and software design.
- Proficiency in Python and experience with data analysis libraries such as pandas, numpy, scipy, and scikit-learn.
- Interest in deep learning approaches and computation libraries like OpenNLP, Stanford NLP, TensorFlow, Keras, etc
- Interest or experience in information extraction, text mining, natural language processing, recommendation systems, and search relevance
- An ability to balance a sense of urgency with shipping high quality and pragmatic solutions
- C# / JAVA skills are a plus
- Experience in the pharmaceutical or medical domain is a plus
