# Cunesoft GmbH and Jordan's Drugstore Owners Association (DOA) Announce Strategic Partnership

*eCTD Submission Software Available to DOA Members*

***Munich, Germany and Amman, Jordan — August 21, 2019 —*** Today, Cunesoft GmbH and DOA have announced their strategic partnership that will make eCTD submission software available to the members of DOA.

"We are very excited to be able to work with DOA and bring Cunesoft's cune-eCTD solution to DOA's 19 corporate members," said Rainer Schwarz, CEO at Cunesoft.

DOA's members will now be able to easily license cune-eCTD in order to comply with Jordan's eCTD submission requirement. "It was very important to us at DOA to partner with a leading provider of eCTD software that will be easy to use for our members," said Thamer Obeidat, Secretary General of DOA. "Cunesoft's software along with their positive industry reputation were key in developing this strategic partnership."

Cunesoft's cune-eCTD offers compliance with Jordan's requirement for eCTD submissions while also including a seamlessly integrated document management capability.

**About DOA:**

The Drugstore Owners Association (DOA) was established in 1972 as a non-profit NGO to manage the relationship among the major pharmaceutical importers and distributors in Jordan

as well as represent their professional and commercial interests with the public and private sector entities in the health care field.

DOA boasts the membership of 19 members whose operations account for a significant share of Jordan's innovative pharmaceutical imports and who represent all the multinational R&D pharmaceutical manufacturers. For more information, visit www.doajo.net.

**About Cunesoft:**

Cunesoft GmbH is a provider of intelligent regulatory software and services for all segments within the life sciences industry. Solutions include management of eCTD, xEVMPD, IDMP data and document management as well as regulatory information management (RIM). Automated data mining based on NLP and Deep Learning algorithms complement the product portfolio. Software provisioning is provided as Private Software as a Service (SaaS). The company is headquartered in Munich (Germany) with international offices in the UK, US and India.
